Bí Cineálta Policy to Prevent and Address Bullying Behaviour

The board of management of Castlerea Community School acknowledges that bullying behaviour interferes with the rights of the child as set out in the United Nations Convention on the Rights of the Child. We all, as a school community, have a responsibility to work together to prevent and address bullying behaviour and to deal with the negative impact of bullying behaviour.

We are committed to ensuring that all students who attend our school are kept safe from harm and that the wellbeing of our students is at the forefront of everything that we do. We recognise the negative impact that bullying behaviour can have on the lives of our students, and we are fully committed to preventing and addressing bullying behaviour.

We confirm that we will, in accordance with our obligations under equality legislation, take all such steps that are reasonably practicable to prevent the harassment of students or staff on any of the nine grounds specified: gender, civil status, family status, sexual orientation, religion, age, disability, race and membership of the Traveller community.

Definition of bullying

Bullying is defined in *Cineáltas: Action Plan on Bullying and Bí Cineálta: Procedures to Prevent and Address Bullying Behaviour for Primary and Post-Primary Schools* as **targeted behaviour, online or offline that causes harm**. The harm caused can be physical, social and/or emotional in nature. Bullying behaviour is repeated over time and involves an imbalance of power in relationships between two people or groups of people in society.

Each school is required to develop and implement a Bí Cineálta policy that sets out how the school community prevents and addresses bullying behaviour. Strategies to deal with inappropriate behaviour that is not bullying behaviour are provided for within the school's Code of Behaviour.

Core definition of Bullying Behaviour (as outlined in Chapter 2 of the Bí Cineálta procedures)

Bullying is targeted behaviour, online or offline that causes harm. The harm caused can be physical, social and/or emotional in nature. Bullying behaviour is repeated over time and involves an imbalance of power in relationships between two people or groups of people in society.

The core definition above sets out clear criteria to help school communities to prevent, correctly identify and address bullying among students. Alleged incidents of bullying are however often complex and must be considered on a case-by-case basis. The core elements of the definition are further described below:

Targeted behaviour

Bullying is deliberate, unwanted behaviour that causes harm to others, and where the student displaying bullying behaviour knows that their behaviour is or will be perceived as harmful by the child or young person experiencing the behaviour. Bullying is not accidental or reckless behaviour. The harm can be physical (for example, personal injury, damage to or loss of property), social (for example, withdrawal, loneliness, exclusion) and/or emotional (for example, low self-esteem, depression, anxiety) and can have a serious and long-term negative impact on the student experiencing the bullying behaviour. If the repeated harm is real for the student experiencing the behaviour but unintended by the other student, this is not bullying but, importantly, must still be addressed under the school's code of behaviour.

Repeated behaviour

Bullying takes the form of a systematic pattern of behaviour which is repeated over time. Single offline incidents of intentional negative behaviour involving an imbalance of power are not considered bullying but must still be addressed under the school's code of behaviour. Posting a single harmful message/image/video online, and which is highly likely to be reposted or shared with others can therefore be seen as bullying behaviour.

Imbalance of power

In incidents of bullying, the student experiencing the bullying behaviour finds it hard to defend themselves because of the abuse of a real or perceived imbalance of power. This imbalance of power may manifest itself through differences in size, strength, age, ability, peer group power, economic status, social status, religion, race, ethnic origin including membership of the Traveller and/or Roma communities, sexual orientation, family circumstances, gender, gender identity, gender expression, experience of the care system, disability or the receipt of special education. In incidents of online (or cyber) bullying, the imbalance of power may relate to online anonymity, technical proficiency and possession of information/images/video, and the inability of the targeted student to remove offensive online material or escape the bullying.

Behaviour that is not bullying behaviour

A one-off instance of negative behaviour towards another student is not bullying behaviour. However, a single hurtful message posted on social media can be

considered bullying behaviour as it may be visible to a wide audience and has a high likelihood of being shared multiple times and so becomes a repeated behaviour. Disagreement between students, or instances where students don't want to be friends or to remain friends, is not considered bullying behaviour unless it involves deliberate and repeated attempts to cause distress, exclude or create dislike by others including deliberate manipulation of friendship groups. Some students with special educational needs may have social communication difficulties which may make them communicate their needs through behaviours that can hurt themselves or others. It is important to note that these behaviours are not deliberate or planned but, in certain situations, they are an automatic response which they can't control. Bullying is not accidental or reckless behaviour. If the repeated harm is real for the student experiencing the behaviour but unintended by the other student, this is not bullying. These behaviours, while not defined as bullying, can be distressing. Strategies to deal with inappropriate behaviour are provided for within the school's Code of Behaviour.

Criminal Behaviour

Bullying behaviour can be considered criminal behaviour under certain circumstances and legal consequences can apply. The age of criminal responsibility in Ireland is 12 years. Some online behaviour may be illegal, and students need to be aware of the far-reaching consequences of posting inappropriate or harmful content online. In cases of intimate imagery, the Harassment, Harmful Communications and Related Offences Act 2020, also known as Coco's Law, criminalises the non-consensual sharing of intimate images and also criminalises threatening to share these images. If bullying behaviour involves physical violence or threats of violence, it may be considered assault. If bullying behaviour involves discrimination or hate speech targeting a student based on their race, religion, nationality, ethnicity, sexual orientation or membership of the Traveller community, it may be considered a hate crime under the Prohibition of Incitement to Hatred Act 1989¹¹, and those engaging in such behaviour may face criminal charges.

If bullying behaviour involves sexual harassment or sexual assault, this may also be considered criminal behaviour.

An Garda Síochána is the appropriate authority to investigate alleged criminal behaviour.

When bullying behaviour becomes a child protection concern

The Children First Act defines harm as assault, ill-treatment, neglect or sexual abuse and covers single and multiple instances.

The threshold of harm is reached where the mandated person believes that a child's health, development or welfare have been, or are being seriously affected, or are likely to be seriously affected.

In determining when bullying behaviour should be reported to Tusla the following factors should be considered:

- >the impact on the child
- >protective/appropriate action taken by the parents
- >protective/appropriate action taken by the school
- >engagement of child/family with support services such as NEPS

Forms of Bullying behaviour:

- Direct (Physical, verbal, written, extortion)
- Indirect (Exclusion, online)

Types of Bullying behaviour:

- Disablist bullying (because of an actual or perceived disability or additional need)
- Exceptionally able bullying (because of ability or talents)
- Gender identity bullying
- Homophobic / Transphobic (LGBTQ+) bullying
- Physical appearance bullying
- Racist bullying
- Poverty bullying
- Religious identity bullying
- Sexist bullying (inferior because of their sex)
- Sexual harassment (ny form of unwanted verbal, nonverbal or physical conduct of a sexual nature or other conduct based on sex which affects the dignity of the student)

student behaviour and wellbeing. Any causes for concern are dealt with and reported to school management.

- All staff are watchful and observe relationships between students in class, note absence patterns and let it be known that high standards of behaviour are always expected.
- Survey of Students - Students are surveyed through an online form regularly throughout the year regarding bullying behaviour as part of the school's mentoring sessions.
- Student Support Teams – Two SST's – Junior and Senior - meet weekly and operate a check and connect system where teachers meet students where concerns may have been brought to their attention.
- Adequate supervision and monitoring of all school tours and extra- curricular activities. Non-teaching and ancillary staff are encouraged to be vigilant and report issues to relevant teachers.
- Supervision will also apply to monitoring student use of communication technology within the school.

Addressing Bullying Behaviour

The teachers with responsibility for addressing bullying behaviour are as follows:

- The Year head for each year group assisted by principal and deputy principal

When bullying behaviour occurs, the school will:

- ensure that the student experiencing bullying behaviour is heard and reassured
- seek to ensure the privacy of those involved
- conduct all conversations with sensitivity
- consider the age and ability of those involved
- listen to the views of the student who is experiencing the bullying behaviour as to how best to address the situation
- take action in a timely manner
- inform parents of those involved

The steps that will be taken by the school to determine if bullying behaviour has occurred, the approaches taken to address the bullying behaviour and to review progress are as follows (see Chapter 6 of the Bí Cineálta procedures):

- Where a member of staff has a concern about a student being bullied, either as a result of a personal observation or as a result of receiving a report from a third party, the staff member should without delay refer the matter to the Year Head, Deputy Principal or Principal.
- In investigating bullying behaviour or addressing bullying behaviour in any way, Year Heads are welcome to seek the assistance and support of the principal, the deputy principal or the student support team at any time.
- The School reserves the right to investigate allegations of bullying (and to take disciplinary action where necessary) where bullying is perpetrated by a member of the school community and it impinges on the work or well-being of a student in the school, even where the bullying acts are committed outside of the school.
- The School reserves the right, in accordance with Section 6 Bí Cineálta Procedures to Prevent and Address Bullying Behaviour for Primary and Post Primary Schools to seek the assistance of agencies such as NEPS, the HSE, and the Gardaí, where it deems such assistance is necessary to dealing effectively with bullying behaviour. In any case, where the School deems bullying behaviour to be potentially abusive (Section 2 Bí Cineálta Procedures to Prevent and Address Bullying Behaviour for Primary and Post Primary Schools) it will consult with the HSE's Children and Family Services to assist it in drawing up an appropriate response or to obtain advice or to make a formal child protection report to the HSE or the Gardaí (as appropriate) in accordance with the DES Child Protection Procedures for Primary and Post Primary (revised 2023)
- Concerns about or allegations of bullying will be investigated and addressed in accordance with Section 6 Bí Cineálta Procedures to Prevent and Address Bullying Behaviour for Primary and Post Primary Schools. These are summarised as follows:
 - ensure that the student experiencing bullying behaviour feels listened to and reassured
 - seek to ensure the privacy of those involved
 - conduct all conversations with sensitivity
 - consider the age and ability of those involved
 - listen to the views of the student who is experiencing the bullying behaviour as to how best to address the situation
 - take action in a timely manner
 - inform parents of those involved*

*Parents are an integral part of the school community and play an important role, in partnership with the school, in addressing bullying behaviour. Where bullying behaviour has occurred, the parents of the parties will be contacted at an early stage to inform them of the matter and to consult with them on the actions to be taken to address the behaviour as outlined in the school's Bí Cineálta policy.

When identifying if bullying behaviour has occurred relevant teachers will consider:

what, where, when and why?

- If a group of students is involved, each student will be engaged with individually at first
- Thereafter, all students involved will be met as a group
- At the group meeting, each student will be asked for their account of what happened to ensure that everyone in the group is clear about each other's views.
- Each student will be supported as appropriate, following the group meeting.
- It may be helpful to ask the students involved to write down their account of the incident(s).
- Given the complexity of bullying behaviour it is generally acknowledged that that no one approach works in all situations.
- Approaches such as restorative practice and mediation will be used to address bullying behaviour where the relevant Year Head involved has been trained in how to engage in these methods and the students involved have agreed to their use.
- In circumstances where student expresses concern about their parents being informed, the school will develop an appropriate plan to support the student and for how their parents will be informed.
- The school will consider communication barriers that may exist when communicating with parents, for example, literacy, digital literacy or language barriers.
- The investigating teacher will engage with the students and parents involved no more than 20 school days after the initial discussion to review progress following the initial intervention.
- If the bullying behaviour has not ceased, the teacher will review the strategies used in consultation with the students and parents and agree to meet again over an agreed timeframe until the bullying behaviour has ceased.
- Where it becomes clear that the student who is displaying the bullying behaviour is continuing to display the behaviour, then the school will consider using the strategies to deal with inappropriate behaviour as provided for within the school's Code of Behaviour and disciplinary sanctions may be considered.

Requests to take no action:

A student reporting bullying behaviour may ask that a member of staff does nothing about the behaviour other than "look out" for them. Where this occurs, empathy will be shown to the student and the matter will be dealt with sensitively to work out together with the student what steps can be taken to address the matter how their

parents will be informed of the situation. It is important that the student who has experienced bullying behaviour feels safe.

Parents may also make the school aware of bullying behaviour that has occurred and specifically request that the school take no action. Parents should put this request in writing to the school or will be facilitated to do so where there are literacy, digital literacy or language barriers.

However, while acknowledging the parent's request, the teacher / management may decide that, based on the circumstances, it is appropriate to address the bullying behaviour.

Supports which may be utilised by the school include, but are not exclusive to, NEPS, Oide, Webwise, National Post Primary Parents Association, TUSLA, DCU Anti-bullying centre

The school will use the following approaches to support those who experience, witness and display bullying behaviour (see Chapter 6 of the Bí Cineálta procedures):

Students who experience Bullying or Witness Bullying:

The school's programme of support for working with pupils affected by bullying is as follows: Students may need counselling and/or opportunities to participate in activities designed to raise their self-esteem, to develop their friendship and social skills and thereby build resilience whenever this is needed.

In this regard the relevant Student Support Team will work closely with the student to ensure they are actively supported in the school and to engage in school based activities they enjoy. They may be placed on our school's Lean in/out support list and/or engage in check and connect.

The schools guidance or chaplaincy departments may also put in place a program of support in conjunction with the Year Head

Students who display bullying Behaviour:

Students who engage in bullying behaviour may need counselling to help them learn other ways of meeting their needs without violating the rights of others. The Year Head in conjunction with the relevant Student Support Team will work closely with the student in this regard.

Recording

All bullying behaviour will be recorded. This will include the type of behaviour, where and when it took place, and the date of the engagement with students and parents. The actions and supports agreed to address bullying behaviour will be documented and retained according to the school's Data Retention Schedule. If the bullying behaviour is a child protection concern the matter will be addressed without delay in accordance with *Child Protection Procedures for Primary and Post-Primary Schools*.

Oversight

The principal will present an update on bullying behaviour at each board of management meeting. This update will include the number of incidents of bullying behaviour that have been reported since the last meeting, the number of ongoing incidents and the total number of incidents since the beginning of the school year. Where incidents of bullying behaviour have occurred, the principal will also provide a verbal update which will include where relevant, information relating to trends and patterns identified, strategies used to address the bullying behaviour and any wider strategies to prevent and address bullying behaviour where relevant. This update does not contain personal or identifying information. See Chapter 7 of the *Bí Cineálta* procedures.
